

SAKHILE RICHARDS

Sakhile joined Mosaic in 2026 and brings a multidisciplinary background in financial analysis, operations, and regulated institutional work. She supports clients with research, data analysis, and the development of clear, board-ready materials.

Sakhile brings nearly two decades of experience across insurance underwriting, financial operations, and project leadership. She began her career in Bermuda within regulated financial institutions, where she evaluated complex risk submissions, analyzed structure and pricing, and developed recommendations supported by thorough documentation standards. This work required disciplined judgment, careful evaluation of trade-offs, and clear documentation, all of which translate directly to governance advisory and board decision-making.

Recently, Sakhile worked in production accounting and operations in the television and film industry. In these roles, she reconciled high-volume financial data, managed compliance-focused documentation, and prepared reports and briefing materials for senior leaders, supporting informed decision-making in fast-moving environments.

Sakhile holds a Master of Science from Northwestern University's Medill School and a Bachelor of Arts in Psychology from Spelman College.

She is based in Atlanta, Georgia.
